DYNAMITE *Makes a Difference*

LIFE CHANGES FROM HEALTH CHOICES

I'm so thankful I found **Dynamite**®! Since my horses have been on **Dynamite**®, I have noticed many positive changes and my farrier agrees.

Chico (my brown quarter horse appendix) was from a feed lot. I have no idea how such a handsome man with charlie brown eyes and a sweet personality ended up in a feed lot, starved. I had to bring his weight up. He was about 100 lbs underweight. As you can see, he is no longer like that.

He also had very brittle hooves. So bad that every year when it dries out, they would crack and chip. Winter was different but still very thin walls and brittle. I just thought it was the way he was. My farrier and I are amazed at how thick they have become. I have done nothing at all different, other than **Dynamite**® and **Izmine**™. My farrier appointments have always been eight weeks apart, and this last time the farrier and I just looked at his hooves all the way around and couldn't believe how thick they were. I told him immediately, "it's the **Dynamite**® products!"

Another situation was when Tricker (my paint) had very bad sunburn problems. We have had it so bad on summer days that he has had gigantic blisters on his nose and mouth. We started using four scoops of **Izmine**™ a day and eventually he was brought down to two scoops a day. This summer has been the hottest ever, 110 high... but he did not sunburn at all. NO SUNSCREEN! I was putting 45-block on his entire face, heavy on the nose, including his nostrils, and the part in his mane and on his back. Poor guy. I now put the 45-block only on his nose where it is really pink. But I do not need the block on his back or mane. I am not sure what causes this to help sunburning but **Izmine**™ has really helped him.

He also had cancer, for which he went through chemo, and has also been through three major surgeries on his eye. My vet said that he came out of the surgeries so fast - due to how healthy he was - that he was able to go home the same day. I did not have to pay for the overnight fees. It saved me a bundle, but also made me feel confident that his diet is a major contributing factor to his recovery in all of this and I must be doing the right thing.

All around, feed is even less. I have healthy, meaty horses who are very happy. Thanks to all the advice from Rowan Emrys (Gold Director, CO), I have learned so much and have been able to get my horses to the health that they required. I really do love **Dynamite**® products and since I have started, I have not missed a beat. My horses get **Dynamite**® before their feedings in the evening, everyday. **THEY LOVE IT!!!!** It allows me to rest, knowing that my horses get the proper vitamins and minerals required for healthy diet. Your supplements are something I swear by. I can't even begin to tell you how much has changed for me.
