We feel so lucky to have found DYNAMITE® back in 1999. It has really enhanced our TB racing and breeding horses.

All of them are in excellent condition: their hooves are incredible, the racers have more energy and "oomph," the broodmares are having large babies easier than ever and the legs on the babies (the bone mass) is actually larger and more dense, meaning they should be able to avoid so many of the problems that plague young race horses.

They put friends' foals to shame.

Also they are shedding their winter coats faster, are calmer and more relaxed, and just plain look better overall. Of course, we also use **Tranquil™, Release™, Wound Balm, Wound Salve, Hiscorbodyne®, Super Stress™** and **PreRace Pac™** when necessary.

Our horses are very special to us, and DYNAMITE® is just as special. We even went away from it for a bit, but came right back because it

works so well. In fact, it works better than anything else we have tried and absolutely nothing can compare!

Darrell* & Henrietta Perry, Director, CO
**Darrell passed away just prior to the CTBA, but Henrietta is continuing their DYNAMITE® TB Racehorse project.*

Julia is a 3 year old feral cat I adopted from a vet 6 months ago. The clinic insisted on vaccinations before I took her home. She had an immediate and severe reaction. This resulted in a year-long bout of irritable bowel, in addition to the sterile cystitis that plagued her. We put her on DYNAMITE® and she is doing so much better!

Now, she gets 1 cc of **Purrformance™** each day. All four cats get **Izmine™** sprinkled on their dry food. And they love the new, more palatable **Canned Turkey for Cats!**

Nikole Rock, Manager, CO

This is Sabian De Niro Pryor, who is absolutely thrilled with DYNAMITE® Super Premium Diet for Dogs! We are both very satisfied with your high quality product!
